

lythera

Welcome to the Lythera Network

Your contribution to the Future of AI technologies

Invest in high-performance GPU clusters for AI
training and generate stable returns.

Rent. Compute. Earn.

Lythera connects enterprise AI demand with high-performance GPU clusters — creating value for developers and returns for you.

Our mission is to build the world's most accessible and comprehensive AI platform — empowering developers with seamless, affordable compute, while enabling users to earn by renting GPU clusters to real AI demand.

Company capital certificate

Lythera has a solid financial foundation backed by stable capital and transparent financial reporting. Our capital is derived from our founders' investments, investments, and revenues from our technology solutions and services. This provides a solid economic base for sustainable development and innovation over the long term.

Benefits

Effortless for Everyone

Lythera is built to be intuitive and accessible for users of any experience level. You can rent GPU clusters in just a few clicks, while we handle all technical operations, workload management, and infrastructure maintenance behind the scenes.

AI-Optimized Returns

Our proprietary AI continuously analyzes demand and performance to allocate workloads across GPU clusters in real time. This smart orchestration helps maximize utilization and ensures your rented clusters are consistently used by active AI workloads.

Built on Innovation

Lythera is powered by cutting-edge AI infrastructure and modern GPU orchestration technologies. We constantly innovate to improve performance, efficiency, and scalability as AI demand continues to grow.

Real Demand, Real Value

Your earnings are driven by real enterprise clients and AI projects actively consuming compute power. This creates sustainable value backed by real-world usage, not short-term hype or speculation.

LYTHERA NETWORK

Rent high-performance GPU clusters and maximize returns through our enterprise clients

Scalable and Flexible Infrastructure

Robust API for Automation

Automate provisioning, monitoring, and billing with a developer-first API.

API

Advanced Dashboard to Track Your Clusters

See performance, utilization, and earnings in real time from one dashboard.

GPU Machine

04 / 12

Integration with Popular Tools and Frameworks

Efficient GPU Renting Operations

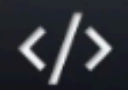

Transparent GPU Mining Metrics

Maximum GPU Efficiency

Real-Time Performance Monitoring

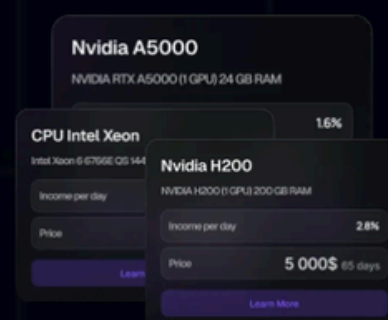

How to use Lythera

Create account

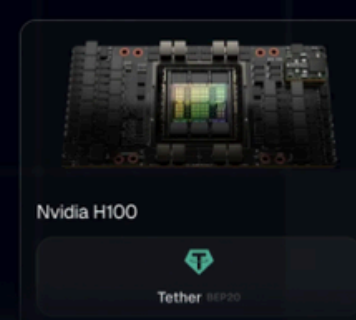

Registration

Create an account in just a few clicks. Our fast verification process lets you access the platform and start earning immediately.

Choose Plan

Browse our rental contracts, select the compute power and duration that fits your goals, and begin earning from active AI workloads.

Purchase

Pay securely via cryptocurrency or credit card. Your compute power is activated and connected to the AI network automatically right after the transaction.

Get Profit

Track your daily earnings in real-time. Withdraw your rewards directly to your personal wallet — instantly, with no hidden fees.

Why we

Core Principles

Only verifiable activity, backed by real AI workloads, on-chain metrics, and transparent, trackable payouts — no simulations, no guesswork.

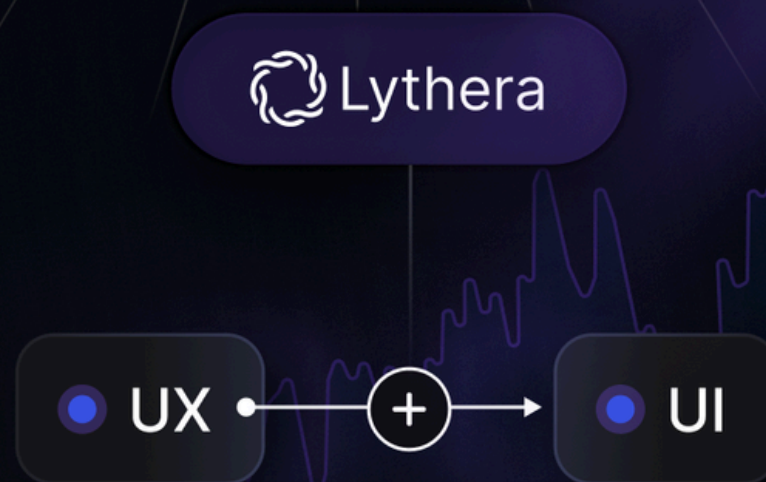

Your Needs Our Focus

Our users satisfaction drives our every action and decision, making your success our ultimate goals

Ease of use

With our UX/UI, We place a premium on user experience

Security

Fortified Security isn't just a feature, it's a commitment

Fast Payments

Streamlined payment system that enables users to be paid in crypto

LYTHERA NETWORK

Clusters

At Lythera, we understand that the heart of any AI-related project is a powerful and reliable computational infrastructure. That's why we have developed a range of high-performance clusters designed to provide optimal power and efficiency for your tasks

Our clusters are equipped with the latest generation of GPUs from leading chip manufacturer Nvidia, ensuring the highest data processing and analysis speeds. We offer various cluster configurations tailored to specific needs and tasks

Why choose Lythera

Enterprises

Cut GPU costs by up to 70%. Native to Kubernetes, seamless with your tools. Burst capacity, full compliance.

Startups

Fast setup. Flexible GPU rentals. No upfront costs. No long-term contracts.

AI GPU Provider

Partner with a leading GPU infrastructure provider. Contribute high-performance clusters to the AI mining network, earn from real demand, and receive automated payouts.

Direct Access – No Middleman Markup

We connect you directly to thousands of GPU owners worldwide instead of one centralized provider. More sellers competing for your business means better prices and immediate availability.

CPU CLUSTERS

One-Click Deployment of CPU Clusters

With Pre-Configured Environments

GPU CLUSTERS

One-Click Deployment of GPU Clusters

With AI Pre-Configured Settings

AI POWERED WORKLOADS

AI-Configured Clusters, Running 24/7

Workloads With Familiar Tooling

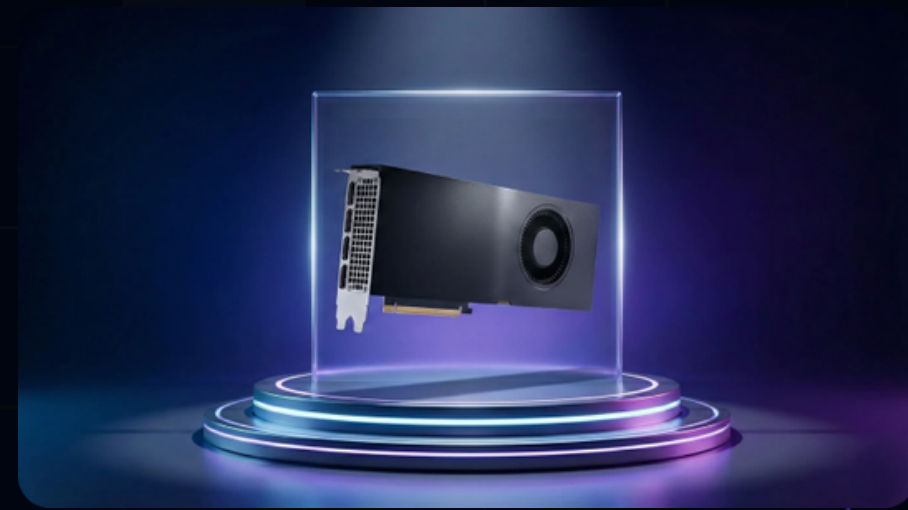

Investment plans

By investing in any of our clusters, you will earn profits not only on weekdays but also on weekends. Earn up to 2.8% net profit daily

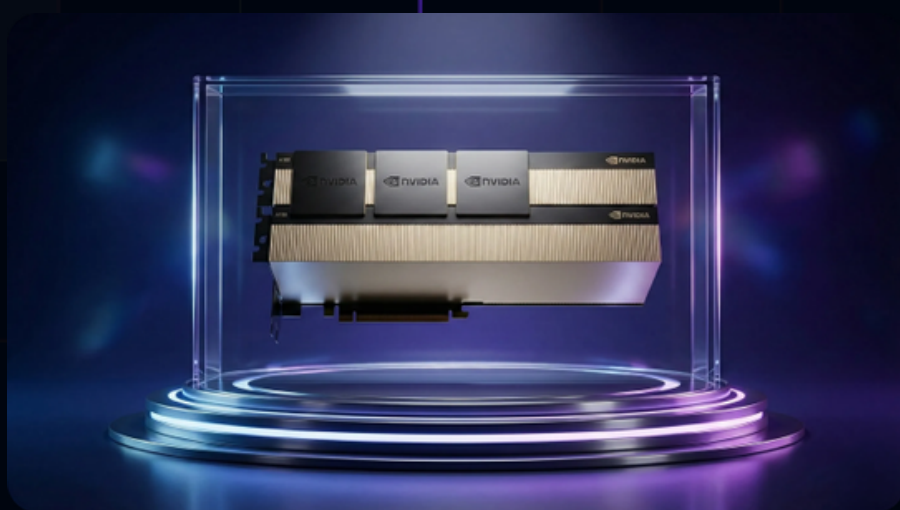

CPU INTEL XEON
